Drug Exception Request Form: For BC Residents Only

ALUMO

Exceptions can only be granted for the current policy year.

This form must be received within 90 days of the first denied claim. If the form is received after 90 days of 1st denied claim, exceptions may only be set up 90 days retroactive from date form is received. The exception will be considered for any medication that is not included on the provincial formulary and that has no other alternatives. The exception can only be requested for drugs that legally require a prescription.

The student Plan does not cover vitamins, supplements, antihistamines, fertility, erectile dysfunction, cosmetic, or smoking cessation products. No exceptions can be made for these products. Vaccinations, anti-malaria medications, and contraceptive devices are not eligible for an exception. Submitting a drug exception does not guarantee that an exception will be granted. Note that certain maximums apply.

Special Authority Confirmation

To be eligible to apply for an exception with Alumo, BC residents are required to first apply for an exception through Special Authority. Students must submit a copy of Special Authority's response along with this form before their request can be processed.

Exceptions through Special Authority must be requested by the prescribing physician. More details about this process can be found on the government website: **www.gov.bc.ca/gov/content/health/practitioner-professional-resources/pharmacare/programs/special-authority**. The response from Special Authority is sent to the doctor's office. Students must request a copy from their doctor or write to Special Authority directly to have a copy mailed to them.

Students who are not residents of British Columbia must contact Alumo for more information on how to apply for an exception.

For approval, please send form to **service@alumo.ca**, by fax at 1-514-789-8734 or by mail to the following address:
