Drug Exception Request Form: For Saskatchewan Residents Only

ALUMO

Exceptions can only be granted for the current policy year.

This form must be received within 90 days of the first denied claim. If the form is received after 90 days of the first denied claim, exceptions may only be set up 90 days retroactive from date form is received. The exception will be considered for any medication that is not included on the provincial formulary and that has no other alternatives. The exception can only be requested for drugs that legally require a prescription.

The student Plan does not cover vitamins, supplements, antihistamines, fertility, erectile dysfunction, cosmetic or smoking cessation products. No exceptions can be made for these products. Vaccinations, anti-malaria medications, and contraceptive devices are not eligible for an exception. Submitting a drug exception does not guarantee that an exception will be granted. Approved drug exceptions are subject to an overall $2,000 policy maximum per person covered by the Plan.
